+ SKILLS

*Identity and Access Management (IAM): **One Identity Manager, SailPoint Identity Security Cloud** (ISC)*
Programming Languages**: Python, Java, C, C++**, *Go, VB.net, Powershell*
Cloud Services: *AWS (S3, EC2, RDS, Lambda, Security Groups)*
DevOps: *Ansible, Jenkins*
Distributed Systems: *Apache Spark, Kafka Streams*
Backend Programming: ***NodeJS, MySQL, MongoDB***
Database Management: ***SQL, PostgreSQL,** MariaDB, DBeaver*
Container Orchestration: ***Docker, Kubernetes***
Frontend Programming: *React, HTML, JavaScript, jQuery, Webflow*
Operating Systems: *Linux, MacOS, Microsoft*
Soft Skills: *Emotional Intelligence, Motivation, Conflict Management, Teamwork, Adaptability*
Others: *Figma, Kotlin, Arduino*
*Languages: **Spanish** (Native), **English** (Fluent), German (Basic)*

+ CERTIFICATIONS AND TRAINING

- *One Identity Manager – Training & Hands-on Labs – Practicing with clients (2025)*
- *Professional SailPoint Identity Security Cloud (ISC) – Certificate No: **z4te7a9r83yb** (2025)*
- *Microsoft Applied Skills: Administer Active Directory Domain Services – Certificate No: **B9965CD54F181BE6** (2024)*

+ EXPERIENCE

IAM Engineer at Allianz Technology — *Madrid, Spain*

January 2026 – Present

*Serving as an **IAM Engineer** focused on the administration and evolution of the **IAM infrastructure**. Responsible for managing **infrastructure changes** and permissions across teams, executing **data migrations**, and providing technical support for **One Identity Manager**. Integrates **monitoring and automation** tools to enhance system stability and optimize deployment workflows.*

Key Contributions and Achievements:

- *Standardized **resource access management** protocols across multiple internal teams.*
- *Successfully coordinated **migration tasks**, ensuring technical alignment with security standards.*
- *Enhanced infrastructure visibility by implementing **real-time monitoring** dashboards.*
- *Optimized deployment cycles through **CI/CD pipelines and automation scripts**.*

***Technologies and Skills**: One Identity Manager, Zabbix, Grafana, Jenkins, Ansible, Infrastructure Management, Migrations, Access Control, Automation.*

IAM Consultant (Junior) at iC Consult Spain *Madrid, Spain*

February 2025 – October 2025

*Joined as a junior consultant, gaining hands-on experience in the professional environment of **Identity and Access Management (IAM)**. Acquired skills in **time tracking, project workflows, and issue management**. Worked under supervision on IAM tools such as **One Identity Manager** and **SailPoint Identity Security Cloud**, contributing to configuration, maintenance, and documentation tasks. Enhanced teamwork capabilities and project coordination, participating in internal meetings, incident resolution, and delivery tracking while ensuring adherence to **security and quality standards**.*

Key Contributions and Achievements:

- *Improved **incident resolution processes** by optimizing workflows in One Identity Manager.*
- *Enhanced **technical documentation** for IAM processes, ensuring consistency and audit readiness.*
- *Reviewed orchestration workflows and contributed to the optimization of **automation scripts** in One Identity Manager.*
- *Completed a **SailPoint Identity Security Cloud (ISC) certification** and applied knowledge through hands-on labs and simulations.*
- *Supported **delivery tracking** by providing accurate reports and status updates for project teams.*

***Technologies and Skills**: One Identity Manager, SailPoint Identity Security Cloud, Incident Management, Documentation, Project Coordination, IAM Workflows, Team Collaboration*

+ EDUCATION

Bachelor's degree in Software Engineering, Minor in Data *Madrid, Spain*

University of Technology and Digital Arts (U-tad) ***Graduated: 2024***

Grade: 7.12/10

- *Solid foundation in **full-stack development** (Python, JavaScript, React, Node.js, MySQL, MongoDB). Experience with **systems programming** (C, C++, Java) and **distributed systems** (Apache Spark, Kafka).*
- *Skilled in **cloud computing** (AWS) and **containerization** (Docker, Kubernetes).*
- *Additional experience in **mobile development (Kotlin), UI/UX design (Figma)**, and **IoT/robotics (Arduino).***
